

617.20  
*Appendix A*  
*State Environmental Quality Review*

## **Full Environmental Assessment Form**

**Introduction:** The Full Environmental Assessment Form (EAF) provides an orderly and documented framework to assist the lead agency in identifying potential environmental impacts of a proposed action and evaluating those potential impacts to determine the environmental significance of the proposed action. The determination of significance is the lead agency's conclusion either that a project may have significant adverse environmental impacts so environmental review must continue with an environmental impact statement, or that an action will have no significant adverse environmental impacts and the environmental review will conclude. The formal statement that potentially significant adverse environmental impacts have been identified, and which leads to the more in-depth environmental review of an environmental impact statement is called a positive declaration; a negative declaration, in contrast, is an affirmation that the action will not have a significant adverse impact on the environment and so will require no further environmental review.

The Full EAF is structured in three parts, which when completed will support the determination of significance by the lead agency.

**Part 1** of the Full EAF must be completed by the sponsor of, or applicant for, the project or action. Part 1 is a series of questions that asks the sponsor to describe the proposed project plus its specific setting, broader surroundings, and regulatory context. Questions in the first section ask about operational needs and characteristics as well as physical specifications. The information provided in Part 1 will be used by reviewing agencies to help identify potential impacts of the proposed action and, together with any available application materials or plans, will be the primary basis for the lead agency's determination of significance.

**Part 2** of the Full EAF must be completed by the lead agency. In Part 2, the lead agency should compare information provided by the sponsor in Part 1 to a standardized set of indicators that will help the lead agency identify potential environmental impacts. Part 2 is intended to help the lead agency systematically discern the full range of possible impacts that may occur from a project or action. The questions are designed to help a reviewer determine whether any element of a proposed project may impact one or more factors of the environment.

**Part 3** of the Full EAF must also be completed by the lead agency. For each potential impact identified in Part 2 by a "yes" response to a screening question, the lead agency should narratively explain the potential impact, and then evaluate that impact's significance, including consideration of magnitude, importance, and inclusion of or potential for mitigation. Each impact discussion should contain a brief, well-reasoned elaboration supporting the lead agency's decision as to whether that impact is potentially significant, or non-significant. The combined discussion of all potential impacts in Part 3 is intended to provide the supporting documentation for the lead agency's determination of significance. Based on the descriptions, discussions and conclusions articulated in Part 3, the lead agency may then complete the certification at the end of Part 3 to finalize its negative or positive declaration, without needing to prepare a separate negative or positive declaration.

# Full Environmental Assessment Form

## Part 1 - - Project and Setting

### Instructions for Completing Part 1:

**Part 1 is to be completed by the project sponsor or applicant.**

Complete the entire form, Parts A through K. Responses to these questions will be considered as part of the application for approval or funding, or of an agency's proposed direct action, and may be subject to further verification and public review. Note that after Question A, the basic identification of the project and sponsor, Part 1 is structured so that you may skip questions when sections are not relevant to the specific proposal. Before skipping any section, however, please be certain that no elements of the topic pertain to your project or action. The lead agency may request that you supplement or complete omitted sections before proceeding with its analysis and determination of significance, if it believes that you have omitted relevant sections. You may also provide any additional information which you believe will be needed by the lead agency to complete Parts 2 and 3; attach additional pages as necessary.

Completion of the Full EAF is expected to be based on information currently available and should not require new studies, research or investigation. For any question where information is not currently available, please specifically indicate that the information does not exist or is not available to the sponsor. Where additional research or investigation would be needed to respond, please answer as well as possible based on information that is available.

### A. Project Information

#### A1. Applicant information

Name of Applicant/Sponsor		Telephone:	
Address			
City/PO		State:	Zip Code:
Project Contact		Telephone:	
Address			
City/PO		State:	Zip Code:
Name of Property Owner (If different from sponsor)		Telephone:	
Address			
City/PO		State:	Zip Code:

#### A2. Project Identification

Project Name:
Project Location (include map showing general location):
Project Description (including purpose or need):

**B. Non-Physical Actions**

If the entire proposed action is identified as a non-physical action by answering yes to any items in “a” AND to “b”, you may skip to Part 1, Question H.

a.i. Does the proposed action involve the adoption or amendment of a land use plan? <input type="checkbox"/> Yes <input type="checkbox"/> No
a.ii. Does the proposed action involve the adoption or amendment of a local law or ordinance? <input type="checkbox"/> Yes <input type="checkbox"/> No
a.iii. Does the proposed action involve the adoption or amendment of policy, rules or regulations? <input type="checkbox"/> Yes <input type="checkbox"/> No
b. Are the adoption or amendment of the plan, law, ordinance, policy, rules or regulations the only components of the proposed action, or the only approval(s) which must be granted for it? <input type="checkbox"/> Yes <input type="checkbox"/> No

**C. Construction and Operations**

C1. Timing

a. Will project be constructed in a single phase? <input type="checkbox"/> Yes <input type="checkbox"/> No   If yes answer b., If no answer c - f
b. Anticipated period of construction: _____ months
c. Total number of phases anticipated _____ (number)

d. Anticipated date of commencement phase 1 ____ month ____ year, (including demolition)
e. Approximate completion date of final phase ____ month ____ year
f. Describe connections and relationships of phase 1 to subsequent phases?

**C2. Project Parameters (complete all applicable sections)**

a. Project acreage to be developed or affected: ____ acres initially; ____ acres ultimately ; ____ If applicable, length of project, in miles												
b. Project area to remain undeveloped ____ acres.												
c. Total acreage including project area and contiguous properties, which are owned or controlled by project sponsor: ____ acres												
d. Is project an expansion? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, what is % of proposed expansion? _____												
e. Does the project include residential uses? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes: number and type of housing units: <table style="width: 100%; border: none;"> <tr> <td style="text-align: center;">One Family</td> <td style="text-align: center;">Two Family</td> <td style="text-align: center;">Three Family</td> <td style="text-align: center;">Multiple Family( four or more)</td> </tr> <tr> <td>Initially _____</td> <td>_____</td> <td>_____</td> <td>_____</td> </tr> <tr> <td>Ultimately _____</td> <td>_____</td> <td>_____</td> <td>_____</td> </tr> </table>	One Family	Two Family	Three Family	Multiple Family( four or more)	Initially _____	_____	_____	_____	Ultimately _____	_____	_____	_____
One Family	Two Family	Three Family	Multiple Family( four or more)									
Initially _____	_____	_____	_____									
Ultimately _____	_____	_____	_____									
f. Dimensions (in feet) of largest proposed structure ____ height; ____ width; ____ length.												
g. Estimate square footage of building space which will be heated or cooled ____ square Feet												
h. Hours of operation: <input type="checkbox"/> Not Applicable <input type="checkbox"/> Applicable, If applicable, specify proposed hours of operation. Monday -Friday: Saturday: Sunday: Holidays:												

**C3. Transportation**

a. Estimated number of vehicle trips to be generated by project: Maximum vehicular trips generated per hour ? _____ Average number of trips per hour? _____ Total number of trips yearly? _____
b. Number of parking spaces (on or off-street): Existing? _____ Total at project completion (new + existing)? _____

c. Will the proposed action require creation of new or modification of existing roads?  Yes  No  
If yes, describe:

d. What is the nearest public transportation service? \_\_\_\_\_

How far is that service from the project site? \_\_\_\_\_

What is the frequency of service? \_\_\_\_\_

If project includes public transit enhancements, describe. \_\_\_\_\_

e. Does project include accessibility or design provisions to accommodate pedestrians or bicycle routes?  Yes  No

If yes, describe.

#### C4. Dredging, Excavation or Mining

a. Will the project include dredging, excavation or mining?  Yes  No  
If yes answer b.-g.

b. What is the purpose of the excavation or dredging?

c. How much material (i.e. rock, earth, sediments, etc.) is proposed to be removed from the site?  
tons/cubic yards? \_\_\_\_\_  
Over what time period? \_\_\_\_\_

d. What would be the maximum depth of excavation? \_\_\_\_\_ Feet

e. What is the total number of acres to be dredged or excavated?

What is the maximum area to be worked at any one time?  
\_\_\_\_\_

f. i. Describe nature and characteristics of materials to be dredged or excavated.

ii. Summarize plans to manage or dispose of the excavated or dredged materials.

g. Will the project involve commercial mining?  Yes  No  
If yes, complete items h and i.

h. Summarize reclamation goals and plan:

i. Will there be onsite processing of excavated materials?  Yes  No  
If yes, describe. \_\_\_\_\_

#### C5. Surface Water, Ground-Water and Wetlands

C5.1 Runoff
a. How much impervious surface will the project create? _____ acres or Sq feet _____
b. Will the project create new point source stormwater discharges such as ditches, pipes, swales, curbs, gutters, or other concentrated flows of stormwater? <input type="checkbox"/> Yes <input type="checkbox"/> No
If yes answer the following questions
c. Where will the discharge(s) be directed - - e.g., on-site facility, onto adjacent properties or into surface waters?
d. Describe discharges, including estimated volume of runoff, and identify any receiving properties, wetlands, and/or waterbodies:
e. Will the project require approval of a storm water management system? <input type="checkbox"/> Yes <input type="checkbox"/> No, If yes, answer question f.
f. List required approvals

C5.2 Will liquid waste be generated? <input type="checkbox"/> Yes <input type="checkbox"/> No (If yes answer applicable C5.2 sub-questions)
a. Is surface liquid waste disposal involved <input type="checkbox"/> Yes <input type="checkbox"/> No
b. If yes, indicate type of waste (sewage, industrial, etc) and amount
c. Name of water body into which effluent will be discharged:
d. Is subsurface liquid waste disposal involved? <input type="checkbox"/> Yes <input type="checkbox"/> No
e. If yes, indicate type of waste (sewage, industrial, etc) and amount:
f. Describe any other liquid waste disposal:
g. Will waste water be processed at a waste water treatment facility? <input type="checkbox"/> Yes <input type="checkbox"/> No  If yes, will an expansion of an existing facility or construction of a new facility be required? <input type="checkbox"/> Yes <input type="checkbox"/> No

C5.3 Will surface area of an existing wetland or water body increase, decrease, or be encroached upon by proposal? <input type="checkbox"/> Yes <input type="checkbox"/> No (If yes answer applicable C5.3 sub-questions)
a. Identify any wetland or waterbodies present in the project area:
b. Is it federally regulated? _____ If yes, area by which federally-regulated waterbody will be increased or decreased by proposal _____

c. Is it State regulated freshwater wetland?  Yes  No, If yes, what is its classification? \_\_\_\_\_  
Area of State regulated fresh water wetlands increased or decreased by proposal \_\_\_\_\_ acres.

d. Is it State regulated tidal wetlands?  Yes  No, If yes area of tidal wetland increased or decreased by the proposal \_\_\_\_\_ acres

e. Is it a locally regulated wetland or waterbody?  Yes  No, If yes area of waterbody or wetland increased or decreased by the proposal \_\_\_\_\_ acres.

f. Is an area of a non-protected water body or wetland present?  Yes  No, If yes area of waterbody or wetland increased or decrease by the proposal \_\_\_\_\_ acres.

C5.4 Will the project include or result in the formation of a pond or dammed water body?

Yes  No (If yes answer applicable C 5.4 sub-questions)

a What is the purpose of the pond?

b. What will be the principal source of the water  Ground water  Surface water streams  
 Surface water runoff

c. Do local land use rules allow a pond at the site?  Yes  No  
If yes, is a local approval required to create a pond?  Yes  No

C5.5 Will the project use or create a new demand for water?

Yes  No (If yes answer applicable C5.5 sub-questions)

a. Total anticipated water usage per day \_\_\_\_\_ gallons/day. Identify water source:

b. If water is from wells, indicate pumping capacity \_\_\_\_\_ gallons/minute.

c. If water is from wells, could the withdrawals pull in subsurface contaminants from the project site or adjoining properties? Describe/cite sources.

C5.6 Is the proposed project in, or does it include, a lake or other waterbody?  Yes  No  
(if yes answer a-c)

a. Will bottom sediments be disturbed?

b. Will aquatic vegetation be removed from site  Yes  No If yes \_\_\_\_\_? Acres  
Describe method of plant removal:

i. If yes, What is the expected acreage of aquatic vegetation remaining after the project has been completed? _____
.ii Describe the purpose of removal (e.g. beach clearing, invasive species control, boat access, etc.)
c. Will project involve introduction of biological agents? ..

C6. Noise, Odor and Light

a. Will blasting occur during construction or operation? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, describe:
b. Will the project produce operating noise exceeding the ambient noise levels? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, provide details including hours sound is produced over 24hr period, week and year:
c. Propose action will remove natural barriers that would act as noise screen.
d. Will the project have outdoor lighting? ? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes describe:
e. Will the project routinely produce odors (more than one hour per day)? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, describe:

C7. Production and Disposal of Hazardous Materials and Solid Waste

C.7.1 Will proposed activities at the site involve hazardous waste(s) and or constituent(s) (i.e. generation, treatment, storage, disposal)? <input type="checkbox"/> Yes No <input type="checkbox"/>
a. If yes, what is the amount per month? _____ tons
b. If yes, how will waste be managed?
c. If an existing hazardous waste facility will be utilized, give name _____, and location _____.
d. Will any wastes not go into a hazardous waste facility? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes explain:

C7.2 Will the project involve the management or disposal of solid waste. <input type="checkbox"/> Yes <input type="checkbox"/> No
a. If yes, what is the anticipated method of disposal:
b. If yes, what is the anticipated rate of disposal: _____ tons/month, Tons/hour _____ if incineration.
c. If yes what is the anticipated site life? _____ years.

d. Does the proposed action involve construction or modification of a solid waste management facility?  Yes  No

C7.3 Does the proposed project require the storage of petroleum or chemical products?

Yes  No

If yes, Identify \_\_\_\_\_ Volume \_\_\_\_\_

#### C8. Herbicides and Pesticides

a. Will the project use herbicide or pesticides?  Yes  No If yes answer b.-d.

b. If yes, explain purpose

c. If yes, specify targets:

d. If yes, indicate application frequency and dates of application

#### C9. Energy Use

a. Will the project result in an increase in energy use?  Yes  No

If yes, describe.

b. a. Is this site served by existing public utilities?

If yes, Identify:

c. Estimate annual electricity demand resulting from the proposed project? \_\_\_\_\_

d. Estimate consumption of fuel that will result from post -construction project operations?

Fuel Type \_\_\_\_\_ Gallons/Year \_\_\_\_\_

e. Identify energy conservation elements incorporated into the project design. \_\_\_\_\_

#### C10. Air Emissions

a. Will the proposed project include or use one or more air emission sources from fuel combustion, waste incineration or other process?

Yes  No

b. If yes, specify and describe:

i. Mobile sources / construction -

ii. Mobile sources / operation -

iii. Stationary sources / construction -
iv. Stationary sources / operation -
c. Will any of the sources above require a State Facility Permit or Title V Permit from the NYSDEC? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes answer i.-v.
i. The project will generate _____ Tons/year of Carbon Dioxide (CO <sub>2</sub> )
ii. The project will generate _____ Tons/year of Nitrous Oxide (N <sub>2</sub> O)
iii. The project will generate _____ Tons/year of Perfluorocarbons (PFCs)
iv. The project will generate _____ Tons/year of Sulfur Hexafluoride (SF <sub>6</sub> )
v. The project will generate _____ Tons of carbon equivalent /year of Hydroflorocarbons (HCFS)
d. Will the project emit methane (eg, sewage treatment plants, municipal land fills, manure or other composting facilities, including CAFO's)? If yes, estimate methane generation in tons/year _____.
e. Will the proposed action result in the release of air pollutants from processes out in the open, such as quarry or landfill operations?
f. The project will require a state air registration, or would produce an emissions rate of total contaminants that would exceed 5 lbs. per hour, or would include a heat source capable of producing more than 10 million BTU's per hour. <input type="checkbox"/> Yes <input type="checkbox"/> No If yes describe:

**D. Site Description**

D1. Site History.
a. Describe any previous projects or proposals involving this project area:
b. Did any previous site proposals result in the creation of an Environmental Impact Statement? If yes, provide title, date and lead agency information:

D2. Total Acreage of Project Area			
a. Describe the existing physical condition and existing land use of the total acreage under project sponsor's control.			
Approximate Acreage Within Entire Property Boundary	Current	After Project Completion	Change
a. Meadowland or Brushland (non-agricultural)			

b. Forested			
c. Agricultural (includes orchards, cropland, pasture, etc)			
d. Freshwater wetland			
e. Tidal wetland			
f. Surface water features			
g. Un-vegetated (rock, earth or fill)			
h. Roads, Buildings and Other Paved/Impervious Surfaces			
i. Other (indicate type)			

D3. Does the project site contain any biological community or habitat types that are of high ecological value.  Yes  No Cite source(s):

a. If yes, describe:

b. Acres of community/habitat presently: _____	Acres of community/habitat after completion of project as proposed: _____	Difference: _____
--	---	-------------------

D4. Does project site contain any species of plant or animal life that is identified as threatened or endangered, or any areas identified as habitat for a threatened or endangered species?  
 Yes  No (If yes answer b-c)

a. Identify species

b. Describe nature of use of site by the species (resident habitat, seasonal habitat, transient use only, etc)

c. Source(s) of information:

D5. What are the predominant soil type(s) present on project site:

a. Soil Drainage:  Well Drained \_\_\_\_\_% of Site  Moderately Well Drained \_\_\_\_\_% of site  
 Poorly Drained \_\_\_\_\_% of Site

b. Are agricultural lands consisting of highly productive soils present?  Yes  No  
If yes, acreage? \_\_\_\_\_  
Cite source(s) from which determination is based.

D6. Are there any unique or unusual land forms or geological features on the project site? (e.g., cliffs, dunes, minerals, fossils, caves or other geological formations)  Yes  No

a. Describe:

D7. Are there bedrock outcroppings on the project site?  Yes  No

a. If yes, what % of the site is comprised of bedrock outcroppings? \_\_\_\_\_%

b. What is the average depth to bedrock? (In feet) \_\_\_\_\_

D8. Approximate percentage of proposed project site with slopes:?

0-10% \_\_\_\_\_%  10-15% \_\_\_\_\_%  15% or greater \_\_\_\_\_%

D9. What is the depth to the water table? \_\_\_\_\_ (in feet)

D10. Is the site located over a primary, principal or sole source aquifer?  Yes  No  
Cite source of information from which determination is based . \_\_\_\_\_

D11. Does any portion of the project site contain wetlands or other waterbodies, or do any wetlands or waterbodies adjoin the site (including streams, rivers, ponds or lakes)?  Yes  No

a. If yes, are any of wetlands or waterbodies within the project site federally, state or locally regulated?  Yes  No  
If yes, indicate in responses to items c, d, and e as applicable.

b. Please attach a map of all wetland(s) or waterbody(ies) within and adjoining the project site.

<p>c.i. Stream(s) Name: (1). (2). (3).</p>	<p>c.iii Total length of each stream on project site: (1). (2). (3).</p>	<p>c.iv. Average depth of stream reach(es) on site: (1). (2). (3).</p>	<p>c.ii.. Stream(s) Number &amp; Class/best use: (1). (2). (3).</p>
<p>d.i. Pond(s)/Lakes(s) Name: (1). (2). (3).</p>	<p>d.iii Total area of each Pond or Lake: (1). (2). (3).</p>	<p>d.iv. Average depth of each Pond or Lake: (1). (2). (3).</p>	<p>d.ii.. Pond(s)/Lakes(s) Number &amp; Class/best use: (1). (2). (3).</p>

e.i. Wetland(s) Name: (1). (2). (3)	e.iii. Total area of each Wetland(s): (1). (2). (3)	e.ii. Wetland(s) Number & Classification: (1). (2). (3)
--	--	--

D12. Floodplain, Floodway or Coastal Erosion Hazard Area (CEHA)

a. Is any portion of the project site located in a designated floodway?  Yes  No

b. Is any portion of the project site located in a 100 year flood plain?  Yes  No

c. Is any portion of the project site located in a 500 year flood plain?  Yes  No

d. Is any portion of the project site located within a designated Coastal Erosion Hazard Area (CEHA)?  
 Yes  No

D13. Does the project site contain an existing dam?  Yes  No

a. If yes, what is the dam's existing hazard classification?

b. Provide date and summarize results of last inspection:

D14. Is there a dam upstream of the project site?  Yes  No (If yes answer a)

a. Would any portion of the project site be within the area subject to flooding in the event of a failure of that dam?

b. Will the project result in requiring a change to an existing dam's hazard classification?  
 Yes  No

D15. Is the project site designated for open space/recreation, or presently used by the community for open space or recreation (formally or informally)?  Yes  No

a. If yes, explain:

D16. Is the project site or adjoining area currently used for hunting, trapping, fishing or shell fishing?  
 Yes  No

D17. Is the proposed action located wholly or partially within a priority project area listed in the current New York State Open Space Conservation Plan, a local open space plan, and/or a county farmland protection plan?  Yes  No

a. If yes, list plan priority project area number and title (if applicable) \_\_\_\_\_

b. If yes, describe resource value the plan seeks to protect on the project site as described in the plan:

D18. Contaminated Site Considerations

a. Is the project site listed on the NYS Registry of Inactive Hazardous Waste Disposal Sites?

Yes  No If yes, please provide Registry Site number \_\_\_\_\_

b. Has the project site ever had a petroleum or hazardous chemical release?

Yes  No  Unknown

If yes, please provide spill case number \_\_\_\_\_

c. Is the project site subject to an environmental easement limiting property uses to protect public health and the environment?

Yes  No If yes, please provide the site number \_\_\_\_\_

d. Is there is a deed restriction on the property related to past contamination on the property?

Yes  No Provide letter from County Clerk's Office to support.

D19. Hazardous Materials

a. Have hazardous wastes ever been generated, treated and/or disposed of at the site?

Yes  No If yes describe:

b. Has a hazardous waste facility ("Part A") application for the site ever been filed with EPA or NYS to comply with the federal Resource Conservation and Recovery Act (RCRA)?

Yes  No

If yes, was the site subject to RCRA corrective activities?  Yes  No

If yes, list or attach description of control measures.

D20. Former Solid Waste Management Facilities

a. Has the project site ever been used as a solid waste management facility?  Yes  No

b. Does the project site adjoin property which is now or was at one time used as a solid waste management facility?  Yes  No

c.i. If yes to a or b: has the site been formally closed?  Yes  No

c.ii. Has the compatibility of the proposed project with that solid waste management facility been evaluated?  Yes  No  
If yes, provide documentation.

**E. Surrounding Area and Uses: Setting of proposed project**

E1. Present Land Use(s) surrounding the site of the proposed project

Urban  Industrial  Commercial  Residential (suburban)  Rural (non-farm)  
 Forest  Agriculture  Aquatic  Other:  
Describe (generally):

E2. Is the site, or any portion of it, located in a designated agricultural district certified pursuant to Agriculture and Markets Law, Article 25-AA, Section 303 and 304?  Yes  No

E3. Does the site contain all or part of, or is it substantially contiguous to, a registered National Natural Landmark?  
 Yes  No

a. If yes, is the landmark: Biological Community  Geological Feature   
Provide Brief Description:

E4. Would the proposed project visible from any officially designated and publicly accessible federal, state, or local scenic or aesthetic resource?  Yes  No

a. If yes, identify resource: \_\_\_\_\_

b. If yes, identify designation: \_\_\_\_\_

E5. Does the site contain, or is it substantially contiguous to, a building, archaeological site or district which is listed on or has been determined to be eligible for the State or National Registers of Historic Places?  Yes  No (If yes answer questions a and b. as applicable)

a. If Yes:  Archeological Site  Historic Building or District Name: \_\_\_\_\_  
Provide brief description of traits on which listing is based:

b. Additional archaeological or historic site(s) or resources which may exist in general area of project:  
Cite source(s):

E6. Do existing public utilities serve the site?  Yes  No If yes, answer a & b.

a. Which utilities?

b. Describe extensions or capacity expansions proposed to serve this project:

E7. Is the site located in or substantially contiguous to a Critical Environmental Area (CEA) designated pursuant to Article 8 of the ECL, and 6 NYCRR 617?  Yes  No.

a. If yes, CEA name and basis for designation: \_\_\_\_\_

E8. Is the proposed project located in an area that fails to meet ambient air quality standards for all or part of the year?  Yes  No

E9. Are there any facilities serving sensitive human populations (e.g. hospitals, playgrounds, schools) within two miles of the project site?

Yes  No If yes, answer a and b.

a. Describe facility/-ies and location relative to project site.

b. Describe any potential project components which could directly affect those populations.

E10. Is the proposed project located within or near an environmental justice community of concern?

Yes  No

a. If yes, characterize the community/-ies.

## **F. Zoning and Planning Information**

F1. Existing zoning

a. What is/are the zoning classification(s) of the site?

b. What is the zoning classification(s) surrounding the site?

c. What is the maximum development potential of the site if fully built out according to the present zoning (in numbers of units, or total commercial/industrial square feet)?

F2. Is a zoning change proposed? <input type="checkbox"/> Yes <input type="checkbox"/> No
a. If yes, what is the proposed new zoning for the site?
b. What would the maximum development potential of the site be if fully built out according to the proposed zoning?
F3. Community services
a. If project proposes to use public water supply:
i. Is project site presently served? <input type="checkbox"/> Yes <input type="checkbox"/> No
ii. Will project require line extension within an existing district? <input type="checkbox"/> Yes <input type="checkbox"/> No
iii. Will project require formation of a new district? <input type="checkbox"/> Yes <input type="checkbox"/> No
b. If project proposes to use public waste water treatment:
i. Is project site presently served? <input type="checkbox"/> Yes <input type="checkbox"/> No
ii. Will project require line extension within an existing district? <input type="checkbox"/> Yes <input type="checkbox"/> No
iii. Will project require formation of a new district? <input type="checkbox"/> Yes <input type="checkbox"/> No
c. Will the proposed action create a demand for any community provided services (recreation, education, police, fire protection)? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, describe:
d. Will proposed action result in the generation of traffic significantly above present levels? <input type="checkbox"/> Yes <input type="checkbox"/> No  If yes, is the existing road network adequate to handle the additional traffic. <input type="checkbox"/> Yes <input type="checkbox"/> No
e. Is the site in a coastal area? <input type="checkbox"/> Yes <input type="checkbox"/> No  i. If yes, is there a local waterfront revitalization plan? <input type="checkbox"/> Yes <input type="checkbox"/> No Title and date adopted _____  ii. If yes, is the site in or contiguous to a designated heritage area or greenway corridor? <input type="checkbox"/> Yes <input type="checkbox"/> No  Name of area/corridor _____
F4. List applicable land use plans for geographic region of the project area.

F5. If the proposed action is the subdivision of land, how many lots are proposed?
a. What is the minimum lot size proposed?
b. Total project size is ____ acres on a ____ acre parcel
c. Will cluster development be utilized? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, describe:

**G. Effect on local employment**

G1. Number of jobs generated: during construction ____; ____ after project is complete ____
---

G2. Number of jobs eliminated by this project ____
--

G3. Will project require relocation of any existing projects or facilities? <input type="checkbox"/> Yes <input type="checkbox"/> No a. If yes, explain:
---

**H. Government Approvals**

H1. Does project involve Local, State, Federal or Tribal, funding? <input type="checkbox"/> Yes <input type="checkbox"/> No
---

a. If yes, explain:
---------------------

b.i. Is the project site within a Coastal Zone Management Area, or covered by a Local Waterfront Revitalization Plan? <input type="checkbox"/> Yes <input type="checkbox"/> No
--

b.ii. Will the proposed project require a Coastal Consistency determination? <input type="checkbox"/> Yes <input type="checkbox"/> No
---

H2. Approvals Required:	If yes, describe	Anticipated Application Date
a. City, Town, Village Board <input type="checkbox"/> Yes <input type="checkbox"/> No		

b. City, Town, Village Planning Board <input type="checkbox"/> Yes <input type="checkbox"/> No		
c. City, Town, Village, Zoning Board <input type="checkbox"/> Yes <input type="checkbox"/> No		
d. Other Local Agencies <input type="checkbox"/> Yes <input type="checkbox"/> No		
e. Regional Agencies <input type="checkbox"/> Yes <input type="checkbox"/> No		
f. State Agencies <input type="checkbox"/> Yes <input type="checkbox"/> No		
g. Federal Agencies <input type="checkbox"/> Yes <input type="checkbox"/> No		
h. Native American Nations <input type="checkbox"/> Yes <input type="checkbox"/> No		

**I. Additional Information**

Attach any additional information which may be needed to clarify your project. If you have identified any adverse impacts which could be associated with your proposal, please identify such impacts plus any measures which you propose to avoid or minimize them.

**J. Verification**

I certify that the information provided is true to the best of my knowledge.

# Full Environmental Assessment Form

## Part 2- Identification of Potential Project Impacts

### Instructions for Part 2:

**Part 2 is to be completed by the lead agency.** Part 2 is designed to help the lead agency inventory all potential resources which could be affected by a proposed project or action. Therefore, answer every one of the 21 questions in Part 2. Answer **Yes** if there may be **any** impact. **Maybe** answers should be considered as **Yes** answers. In identifying impacts, consider the possibility for long term and cumulative effects as well as direct impacts.

If the lead agency is a state agency AND the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Before beginning Part 2, review all of the information provided in Part 1 as well as any underlying application and supporting materials to ensure that Part 1 accurately describes all components of the proposed activity, that is, the “whole action”, because SEQRA requires that all component activities or stages of a proposal should be reviewed simultaneously, except in rare cases which must be explicitly justified (see 6 NYCRR Part 617.2(ag)).

The lead agency’s reviewer(s) will not necessarily be environmental professionals. In completing Part 2, reviewers should be guided by the question: Have my responses and determinations been reasonable for the scale and context of this project? The impacts of each project, on each site, in each locality, will vary. Therefore, examples used in Part 2 are illustrative and are offered as guidance. They do not constitute an exhaustive list of impacts and thresholds to answer each question, and each lead agency’s reviewers are expected to consider potential impacts in the specific context of each project. When an “Other Impacts” element is checked, please provide notes briefly identifying those impact(s).

**Part 2 Questions**

<b>1. Impact on Land:</b> Will any element of the project have any of the following effects? If "Yes" to one or more item, explain in Part 3.	<b>Yes</b>	<b>No</b>
a. Creation of over 1000 square feet of impervious surfaces.	<input type="checkbox"/>	<input type="checkbox"/>
b. Construction on land where depth to water table is less than 3 feet.	<input type="checkbox"/>	<input type="checkbox"/>
c. Any construction on slopes of 15% or greater, or where the general slopes in the project area exceed 10%.	<input type="checkbox"/>	<input type="checkbox"/>
d. Construction on land where bedrock is exposed, or generally within 5 feet of existing ground surface.	<input type="checkbox"/>	<input type="checkbox"/>
e. Excavation that would remove more than 1,000 tons of natural material.	<input type="checkbox"/>	<input type="checkbox"/>
f. Construction would continue for more than one year	<input type="checkbox"/>	<input type="checkbox"/>
g. Construction would occur in multiple phases/years	<input type="checkbox"/>	<input type="checkbox"/>
h. Project could result in increased erosion, whether from physical disturbance or vegetation removal (including from treatment by herbicides)?	<input type="checkbox"/>	<input type="checkbox"/>
i. Project would be located within, but incompatible with standards for, a Coastal Erosion hazard area.	<input type="checkbox"/>	<input type="checkbox"/>
j. Other impacts	<input type="checkbox"/>	<input type="checkbox"/>

<b>2. Impact on Geological Features:</b> Will any element of the project have any of the following effects? If "Yes" to one or more item, explain in Part 3.	<b>Yes</b>	<b>No</b>
a. Proposed action inhibit access to or result in the modification to or destruction of any unique or unusual land forms on the site? (e.g., cliffs, dunes, minerals, fossils, caves)  Specific land forms: _____	<input type="checkbox"/>	<input type="checkbox"/>

b. Action may result in the modification or destruction of any geological feature listed as a registered National Natural Landmark? Specific feature: _____ _____	<input type="checkbox"/>	<input type="checkbox"/>
c. Other impacts:	<input type="checkbox"/>	<input type="checkbox"/>

<b>3. Impact on Surface Water:</b> Will any element of the project have any of the following effects? If "Yes" to one or more item, explain in Part 3.	<b>Yes</b>	<b>No</b>
a. Project area or site contains one or more wetlands or other water bodies (streams, rivers, ponds or lakes).	<input type="checkbox"/>	<input type="checkbox"/>
b. Proposed action would create a new water body.	<input type="checkbox"/>	<input type="checkbox"/>
c. Project will result in a 10% increase or decrease in the surface area of any body of water, or more than a 10 acre increase or decrease.	<input type="checkbox"/>	<input type="checkbox"/>
d. Project would involve dredging more than 100 cubic yards of material from a wetland or water body.	<input type="checkbox"/>	<input type="checkbox"/>
e. Construction proposed within a freshwater or tidal wetland or its regulated adjacent area, or in bed or banks of other water body.	<input type="checkbox"/>	<input type="checkbox"/>
f. Proposed action will create turbidity from upland erosion or by disturbing bottom sediments of waterbody.	<input type="checkbox"/>	<input type="checkbox"/>
g. Project would include construction of one or more intake(s) for withdrawal of water from surface water.	<input type="checkbox"/>	<input type="checkbox"/>
h. Project would include construction of one or more outfall(s) for discharge of wastewater to surface water	<input type="checkbox"/>	<input type="checkbox"/>
i. Project would create concentrated discharges of Stormwater that could cause soil erosion or siltation or degradation of receiving water bodies.	<input type="checkbox"/>	<input type="checkbox"/>
j. The project does not have an approved storm water management plan.	<input type="checkbox"/>	<input type="checkbox"/>

k. Project may compromise the water quality, classification, or designated best use of any water bodies (potable water, swimming, or fishing) within or downstream of the project area.	<input type="checkbox"/>	<input type="checkbox"/>
l. Will the application of pesticides occur in or around any water body?	<input type="checkbox"/>	<input type="checkbox"/>
m. Liquid effluent is proposed to be conveyed off the site to facilities which do not yet exist, or to existing facilities which do not have adequate capacity.	<input type="checkbox"/>	<input type="checkbox"/>
n. Other impacts	<input type="checkbox"/>	<input type="checkbox"/>

<b>4. Impact on groundwater:</b> Will any element of the project have any of the following effects? If “Yes” to one or more item, explain in Part 3.	<b>Yes</b>	<b>No</b>
a. Proposed action would involve wastewater discharge to groundwater.	<input type="checkbox"/>	<input type="checkbox"/>
b. Project would require new water supply wells, or create additional demand on supplies from existing water supply wells.	<input type="checkbox"/>	<input type="checkbox"/>
c. Project demand will exceed sustainable and safe withdrawal capacity rate for local supply/aquifer. Cite Source _____	<input type="checkbox"/>	<input type="checkbox"/>
d. Proposed actions will require the storage of petroleum or chemical products over ground water or an aquifer.	<input type="checkbox"/>	<input type="checkbox"/>
e. Does the proposed project have the potential to introduce contaminants to ground water or an aquifer?	<input type="checkbox"/>	<input type="checkbox"/>
f. Proposed action would involve the application of pesticides near potable drinking water or irrigation sources	<input type="checkbox"/>	<input type="checkbox"/>
g. Other impacts	<input type="checkbox"/>	<input type="checkbox"/>

<b>5. Impact on flooding:</b> Will Any element of the project includes the following examples? If “Yes” to one or more item, explain in Part 3.	<b>Yes</b>	<b>No</b>
---	------------	-----------

a. Proposed action will result in development in a designated floodway?	<input type="checkbox"/>	<input type="checkbox"/>
b. Proposed project is within 100 year floodplain	<input type="checkbox"/>	<input type="checkbox"/>
c. Project is a critical facility and is proposed to be located in a 500 year floodplain?	<input type="checkbox"/>	<input type="checkbox"/>
d. Proposed action will result in or require modification of existing drainage patterns.	<input type="checkbox"/>	<input type="checkbox"/>
e. Proposed action would change flood water flows.	<input type="checkbox"/>	<input type="checkbox"/>
f. If a dam exists upstream of the project site, either on or above project sponsor's property, would the project result in a need to change the dam's hazard classification (i.e., would project introduce or increase population and infrastructure in the zone which would be flooded in the event of a dam failure)?	<input type="checkbox"/>	<input type="checkbox"/>
g. If a dam exists on the project site, has it failed to meet one or more safety criteria on its most recent inspection? Date of last inspection:	<input type="checkbox"/>	<input type="checkbox"/>
h. Other Impacts	<input type="checkbox"/>	<input type="checkbox"/>

<b>6. Impacts on Air:</b> Will any element of the project have any of the following effects? If "Yes" to one or more item, explain in Part 3.	<b>Yes</b>	<b>No</b>
a. The project would be located in an area which fails to meet one or more ambient air quality standards for some or all of the year.	<input type="checkbox"/>	<input type="checkbox"/>
b. Would the project require federal or state air emission permits?	<input type="checkbox"/>	<input type="checkbox"/>
c. If yes to b, would the project involve any of the following levels of emissions of greenhouse gases:	<input type="checkbox"/>	<input type="checkbox"/>
i. The project will generate greater than 1000 tons/year of carbon dioxide (CO <sub>2</sub> )	<input type="checkbox"/>	<input type="checkbox"/>
ii. The project will generate greater than 3.5 tons/year of Nitrous Oxide (N <sub>2</sub> O)	<input type="checkbox"/>	<input type="checkbox"/>

iii. The project will generate greater than more than 1000 tons of carbon equivalent of perfluorocarbons (PFCs)	<input type="checkbox"/>	<input type="checkbox"/>
iv. The project will generate greater than .045 tons of per year of sulfur hexafluoride (SF <sub>6</sub> )	<input type="checkbox"/>	<input type="checkbox"/>
v. The project will generate greater than 1000 tons of carbon equivalent of Hydrochlorofluorocarbons (HCFCs) emissions	<input type="checkbox"/>	<input type="checkbox"/>
d. The project is estimated to generate or produce 43 tons/year or more of methane.	<input type="checkbox"/>	<input type="checkbox"/>
e. The project will require a state air registration, or would produce an emissions rate of total contaminants that would exceed 5 lbs. per hour, or would include a heat source capable of producing more than 10 million BTU's per hour.	<input type="checkbox"/>	<input type="checkbox"/>
f. The project would require a local air emissions permit.	<input type="checkbox"/>	<input type="checkbox"/>
g. Proposed action will induce 1,000 or more vehicle trips in any given hour..	<input type="checkbox"/>	<input type="checkbox"/>
h. The project would meet or exceed any of the following thresholds:		
i. The project would generate 160,000 or more new vehicle trips per year or 2.4 million vehicle miles traveled per year.	<input type="checkbox"/>	<input type="checkbox"/>
ii. The project would result in greater than 100,000 gallons of fuel consumption per year from post-construction operations (including on-site use and off-site fleet use)	<input type="checkbox"/>	<input type="checkbox"/>
iii. The project would utilize more than 2,500 MWhrs per year of electricity.	<input type="checkbox"/>	<input type="checkbox"/>
iv. The project will involve heating and/or cooling of more than 100,000 square feet of building area when completed.	<input type="checkbox"/>	<input type="checkbox"/>
v. The project would reach 50% of any two or more of the above thresholds	<input type="checkbox"/>	<input type="checkbox"/>
i. Proposed action will result in the incineration of more than 1 ton of refuse per hour.	<input type="checkbox"/>	<input type="checkbox"/>
j. Other Impacts	<input type="checkbox"/>	<input type="checkbox"/>

<p><b>7. Impact on Plants and Animals:</b></p> <p>Will any element of the project have any of the following effects?</p> <p>If “Yes” to one or more item, explain in Part 3.</p>	<p><b>Yes</b></p>	<p><b>No</b></p>
<p>a. Proposed action would cause reduction in population or loss of individuals of any threatened or endangered species, as listed by New York State or the Federal government, that are using the site, or are found on, over, or near the site.</p>	<p><input type="checkbox"/></p>	<p><input type="checkbox"/></p>
<p>b. Proposed action would result in a reduction or degradation of any habitat used by any threatened or endangered species, as listed by New York State or the Federal government.</p>	<p><input type="checkbox"/></p>	<p><input type="checkbox"/></p>
<p>c. Project would result in direct exposure of any threatened or endangered species, as listed by New York State or the Federal government, to pesticides (including herbicides).</p>	<p><input type="checkbox"/></p>	<p><input type="checkbox"/></p>
<p>d. Action may diminish the capacity of a registered National Natural Landmark to support the biological community it was established to protect.</p>	<p><input type="checkbox"/></p>	<p><input type="checkbox"/></p>
<p>e. Removal of, or ground disturbance in, any portion of a designated significant natural community.</p> <p>Source: _____</p>	<p><input type="checkbox"/></p>	<p><input type="checkbox"/></p>
<p>f. Proposed action would substantially interfere with any key life function of any resident or migratory terrestrial, avian or aquatic wildlife species.</p>	<p><input type="checkbox"/></p>	<p><input type="checkbox"/></p>
<p>g. Proposed action requires the removal of more than 10 acres of forest, grassland or any other locally important habitat.</p> <p>Habitat type &amp; information source: _____</p>	<p><input type="checkbox"/></p>	<p><input type="checkbox"/></p>
<p>h. Proposed action would cause a reduction in population(s) or loss of individuals of any plant or animal populations critical to support a valued resource or habitat.</p>	<p><input type="checkbox"/></p>	<p><input type="checkbox"/></p>
<p>i project involves introduction of biological agents.</p>	<p><input type="checkbox"/></p>	<p><input type="checkbox"/></p>
<p>j. Other Impacts</p>	<p><input type="checkbox"/></p>	<p><input type="checkbox"/></p>

<b>8. Impact on Agricultural Resources:</b> Will any element of the project have any of the following effects? If “Yes” to one or more item, explain in Part 3.	<b>Yes</b>	<b>No</b>
a. The proposed action would sever, cross or otherwise limit access to agricultural land (includes cropland, hayfields, pasture, vineyard, orchard, etc).	<input type="checkbox"/>	<input type="checkbox"/>
b. Construction activity would excavate or compact the soil profile of active agricultural land or highly productive soils.	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action would irreversibly convert more than 10 acres of agricultural land or, if located in an Agricultural District, more than 2.5 acres of an agricultural land to non-agricultural uses.	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action would disrupt or prevent installation of agricultural land management systems	<input type="checkbox"/>	<input type="checkbox"/>
e. Proposed project could result, directly or indirectly, in increased development potential or pressure on farmland.	<input type="checkbox"/>	<input type="checkbox"/>
f. Proposed project would include the application of pesticides near any sensitive agricultural areas (e.g., grazing animals or vineyards).	<input type="checkbox"/>	<input type="checkbox"/>
g. Other Impacts	<input type="checkbox"/>	<input type="checkbox"/>

<b>9. Impact on Aesthetic Resources:</b> Will any element of the project have any of the following effects? If “Yes” to one or more item, explain in Part 3.	<b>Yes</b>	<b>No</b>
a. Proposed project or project components would be visible from any federal, state, or locally-designated aesthetic resource. If yes, continue with i - iii.	<input type="checkbox"/>	<input type="checkbox"/>
i. One or more project components would result in the obstruction, elimination or significant screening of scenic views known to be important to the area.	<input type="checkbox"/>	<input type="checkbox"/>
ii. Proposed project would cause a diminishment of the public enjoyment and appreciation of the designated aesthetic resource.	<input type="checkbox"/>	<input type="checkbox"/>

iii. Proposed land uses or project components obviously differ from or are in sharp contrast to current land use patterns within and adjoining the designated resource.	<input type="checkbox"/>	<input type="checkbox"/>
b. Proposed project or project components might be visible from other publicly-accessible vantage points. Specify:	<input type="checkbox"/>	<input type="checkbox"/>
c. Other impacts	<input type="checkbox"/>	<input type="checkbox"/>

<b>10. Impact on Historic and Archeological Resources:</b>		
Will any element of the project have any of the following effects?  If “Yes” to one or more item, explain in Part 3.	<b>Yes</b>	<b>No</b>
a. The proposed project would occur wholly or partially within or substantially contiguous to any facility or site listed on the State or National Register of Historic Places, or determined to be eligible for such listing.	<input type="checkbox"/>	<input type="checkbox"/>
b. Proposed project would occur in or near an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory.	<input type="checkbox"/>	<input type="checkbox"/>
c. Proposed project would occur in or near an archaeological site not included on the NY SHPO inventory.  Source: __	<input type="checkbox"/>	<input type="checkbox"/>
If any of the above questions are answered “yes” continue with the following questions to help support conclusions in Part 3		
i. Proposed project would result in the destruction or alteration of the site or property.	<input type="checkbox"/>	<input type="checkbox"/>
ii. Proposed project would result in the isolation or alteration of the site or property, or its setting.	<input type="checkbox"/>	<input type="checkbox"/>
iii. Proposed project would result in the introduction of visual, audible, or atmospheric elements which are out of character with the site or property, or would alter its setting.	<input type="checkbox"/>	<input type="checkbox"/>

iv. Proposed project would result in the neglect of the property, and could result in its deterioration or destruction.	<input type="checkbox"/>	<input type="checkbox"/>
d. Other Impacts	<input type="checkbox"/>	<input type="checkbox"/>

<b>11. Impact on Open Space and Recreation:</b> Will any element of the project have any of the following effects? If “Yes” to one or more item, explain in Part 3.	<b>Yes</b>	<b>No</b>
a. Proposed project would result in a reduction of an open space resource as designated in the NYS Open Space Conservation Plan, any local open space plan, or county farmland protection plan.	<input type="checkbox"/>	<input type="checkbox"/>
b. Proposed project would result in an impairment of ecosystem services provided by an undeveloped area (e.g., stormwater storage, nutrient cycling, wildlife habitat).	<input type="checkbox"/>	<input type="checkbox"/>
c. Proposed project would eliminate open space or recreational resource in an area with few such resources.	<input type="checkbox"/>	<input type="checkbox"/>
d. Proposed project would result in the permanent loss of a current or future recreational resource.	<input type="checkbox"/>	<input type="checkbox"/>
e. Proposed project would result in loss of an area now used informally by the community as an open space resource.	<input type="checkbox"/>	<input type="checkbox"/>
f. Other Impacts	<input type="checkbox"/>	<input type="checkbox"/>

<b>12. Impact on Critical Environmental Areas:</b> Will any element of the project have any of the following effects? If “Yes” to one or more item, explain in Part 3.	<b>Yes</b>	<b>No</b>
a. Proposed action would be located within or adjacent to a critical environmental area (CEA). If yes, respond to i - iii.	<input type="checkbox"/>	<input type="checkbox"/>
i. Proposed action will result in a reduction in the quantity of the resource or characteristic which was the basis for designation of the CEA.	<input type="checkbox"/>	<input type="checkbox"/>

ii. Proposed action will result in a reduction in the quality of the resource or characteristic which was the basis for designation of the CEA.	<input type="checkbox"/>	<input type="checkbox"/>
iii. Other impacts	<input type="checkbox"/>	<input type="checkbox"/>

<b>13. Impact on Transportation:</b> Will any element of the project have any of the following effects? If “Yes” to one or more item, explain in Part 3.	<b>Yes</b>	<b>No</b>
a. Alteration of present patterns of movement of people and/or goods.	<input type="checkbox"/>	<input type="checkbox"/>
b. Proposed action will result in increased traffic	<input type="checkbox"/>	<input type="checkbox"/>
c. Construction of paved parking area for 1,000 or more vehicles.	<input type="checkbox"/>	<input type="checkbox"/>
d. Project provides little or no public transportation access	<input type="checkbox"/>	<input type="checkbox"/>
e. Project provides few or no pedestrian and bicycle accommodations.	<input type="checkbox"/>	<input type="checkbox"/>
f. Other Impacts	<input type="checkbox"/>	<input type="checkbox"/>

<b>14. Impact on Energy:</b> Will any element of the project have any of the following effects? If “Yes” to one or more item, explain in Part 3.	<b>Yes</b>	<b>No</b>
a. Is existing utility capacity currently insufficient to allow connection? <input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/>	<input type="checkbox"/>
b. Has the project failed to incorporate energy conserving opportunities?	<input type="checkbox"/>	<input type="checkbox"/>
c. Proposed action will cause a substantial increase in the use of any form of energy in the municipality.	<input type="checkbox"/>	<input type="checkbox"/>
d. Other Impacts	<input type="checkbox"/>	<input type="checkbox"/>

<b>15. Impact on Noise, Odor, and Light:</b> Will any element of the project have any of the following effects? If “Yes” to one or more item, explain in Part 3.	<b>Yes</b>	<b>No</b>
a. Project will produce sound above ambient noise levels beyond project boundary.	<input type="checkbox"/>	<input type="checkbox"/>
b. Blasting within 1,500 feet of a hospital, school or other sensitive facility.	<input type="checkbox"/>	<input type="checkbox"/>
c. Odors will occur routinely (more than one hour per day).	<input type="checkbox"/>	<input type="checkbox"/>
d. Bright lighting will shine obtrusively onto adjoining properties	<input type="checkbox"/>	<input type="checkbox"/>
e. Lighting will create sky-glow brighter than existing area conditions.	<input type="checkbox"/>	<input type="checkbox"/>
f. Other Impacts	<input type="checkbox"/>	<input type="checkbox"/>

<b>16. Impact on Unhealthy Exposures:</b> Will any element of the project have any of the following effects? If “Yes” to one or more item, explain in Part 3.	<b>Yes</b>	<b>No</b>
Question 16a - 16e are applicable to sites at or adjacent to spill sites or inactive hazardous waste sites	<input type="checkbox"/>	<input type="checkbox"/>
a. Is the location of the proposed project currently undergoing remediation?	<input type="checkbox"/>	<input type="checkbox"/>
b. Is there a current emergency spill remediation or a NYS DEC enforcement action pending that involves the site?	<input type="checkbox"/>	<input type="checkbox"/>
c. Is the proposal inconsistent with any environmental easement restrictions?	<input type="checkbox"/>	<input type="checkbox"/>
d. Is the proposal inconsistent with any deed restrictions?	<input type="checkbox"/>	<input type="checkbox"/>
Question 16e is applicable if the proposed project site was subject to RCRA corrective activities as identified in Part 1 question D.19	<input type="checkbox"/>	<input type="checkbox"/>
e. Will any of the proposed activities affect control measures that were put in place to ensure that the site remains protective of the environment and human health?	<input type="checkbox"/>	<input type="checkbox"/>

Question 16.f is applicable if the proposed project will entail the handling of hazardous waste as indicated in Part 1 question C.7.1	<input type="checkbox"/>	<input type="checkbox"/>
f. Is it uncertain that adequate control measures will be put in place to ensure that future generation, treatment and/or disposal of hazardous wastes will be protective of the environment and human health.	<input type="checkbox"/>	<input type="checkbox"/>
Questions 16g-16n are applicable for sites at or adjacent past, present or future solid waste facilities (Where applicable support with NYSDEC or other documented information source)	<input type="checkbox"/>	<input type="checkbox"/>
g. The proposed action involves construction or modification of a solid waste management facility.	<input type="checkbox"/>	<input type="checkbox"/>
h. The proposed action may result in the unearthing of solid waste.	<input type="checkbox"/>	<input type="checkbox"/>
i. Proposed action may result in the migration of explosive gases from a landfill site and/or collection of explosive gases within buildings.	<input type="checkbox"/>	<input type="checkbox"/>
j. The proposed action may result in the construction of water supply wells where groundwater may be contaminated from landfill runoff.	<input type="checkbox"/>	<input type="checkbox"/>
k. Proposed action may result in the exposure of the public to fugitive leachate..	<input type="checkbox"/>	<input type="checkbox"/>
l. Propose action may result in the excavation or other disturbance within 2000 feet of a site used for the disposal of solid or hazardous waste.	<input type="checkbox"/>	<input type="checkbox"/>
m. Storage facilities for one million or more gallons of liquified natural gas or other flammable liquids.	<input type="checkbox"/>	<input type="checkbox"/>
n. Proposed action will allow residential uses in areas without water and sewer services.	<input type="checkbox"/>	<input type="checkbox"/>
o. Proposed action is commercial or industrial use which requires construction of new or expansion of existing wastewater treatment facilities.	<input type="checkbox"/>	<input type="checkbox"/>
p. Liquid effluent is proposed to be conveyed off the site to facilities which do not yet exist, or to existing facilities which do not have adequate capacity.	<input type="checkbox"/>	<input type="checkbox"/>
q. Other	<input type="checkbox"/>	<input type="checkbox"/>

<b>17. Impact on Community:</b> Will any element of the project have any of the following effects? If “Yes” to one or more item, explain in Part 3.	<b>Yes</b>	<b>No</b>
a. Proposed land uses or project components would be obviously different from or in sharp contrast to current surrounding land use pattern(s).	<input type="checkbox"/>	<input type="checkbox"/>
b. The permanent population of the city, town or village in which the project is located is likely to grow by more than 5%.	<input type="checkbox"/>	<input type="checkbox"/>
c. The municipal budget for capital expenditures or operating services will increase by more than 5% per year as a result of the project.	<input type="checkbox"/>	<input type="checkbox"/>
d. Proposed action will conflict with officially adopted plans or goals.	<input type="checkbox"/>	<input type="checkbox"/>
Proposed action will cause a change in the density of land use.	<input type="checkbox"/>	<input type="checkbox"/>
e. Proposed action will replace or eliminate existing facilities, structures, or areas of historic importance to the community.	<input type="checkbox"/>	<input type="checkbox"/>
f. Development will create a demand for additional community services (e.g. schools, police and fire, etc.) that existing budgets could not meet as a result of increased costs.	<input type="checkbox"/>	<input type="checkbox"/>
g. Proposed action will set an important precedent for future projects.	<input type="checkbox"/>	<input type="checkbox"/>
h. Proposed action will create or eliminate employment.	<input type="checkbox"/>	<input type="checkbox"/>
i. Is the proposed action consistent with recommended uses in local land use plans.	<input type="checkbox"/>	<input type="checkbox"/>
j. Is the proposed action compatible with adjoining/surrounding land uses within 1/4 mile?	<input type="checkbox"/>	<input type="checkbox"/>
k. Proposed action will allow an increase in the amount of land committed to industrial use	<input type="checkbox"/>	<input type="checkbox"/>
l. Will the application of pesticides occur near any sensitive facilities (i.e. schools, day cares, hospitals)?	<input type="checkbox"/>	<input type="checkbox"/>
m. Proposed action would conflict with the cultural purposes an area is designated for through treaty or other legal authority with a Native American population.	<input type="checkbox"/>	<input type="checkbox"/>

n. Will the project's environmental impacts create an environmental justice burden?	<input type="checkbox"/>	<input type="checkbox"/>
o. Proposed project will displace affordable or low-income residential units.	<input type="checkbox"/>	<input type="checkbox"/>
p. Proposed project will interfere with the use or enjoyment of residential property, either temporarily or permanently.	<input type="checkbox"/>	<input type="checkbox"/>
q. Proposed project would be inconsistent with Coastal Zone Management Area or Local Waterfront Revitalization Plan.	<input type="checkbox"/>	<input type="checkbox"/>
r. Other Impacts	<input type="checkbox"/>	<input type="checkbox"/>

If any Question in Part 2 is answered "Yes", you must proceed to Part 3.

If any "No" responses require more elaboration, you may use Part 3 to provide that reasoning.

## Part 3- Evaluation of Importance of Potential Impacts

### Instructions

#### Part 3 must be completed by the Lead Agency.

For **each** potential impact identified in Part by a “yes” response, provide a brief narrative which discusses each of the following questions. Attach as many sheets as needed to address all potential impacts.

1. Briefly describe the impact and its general magnitude, including at least the likely extent, resource(s) or population(s) affected, and project elements expected to cause the impact.
2. If the impact is avoided or substantially reduced by design measures included in project designs, describe those measures.
3. If the impact could be mitigated or reduced to an inconsequential impact by project change(s), describe those measures.
4. Based on the information available, decide if the impact is also **important**. To assess impact importance, the lead agency must consider:
  - The probability that the impact would actually occur
  - The duration of the impact
  - Whether the impact is, or is not, reversible, including identification and values of any resources which could be permanently lost
  - Whether the impact will be controlled by design measures included in the project, or could be avoided, limited or controlled by other measures
  - Any regional or broader consequences of the impact
  - Any potential divergence of the project from local needs and goals
  - Whether known objections to the project relate to this impact.

After these analyses are created for each identified potential impact, the lead agency must determine if there are any significant adverse environmental impacts from the project which are not substantially avoided or mitigated by project design. Based on that analysis, the lead agency must reach its determination of significance, that is, whether to require an environmental impact statement to explore alternatives to avoid or mitigate significant adverse environmental impacts, or whether available information is sufficient for the lead agency to conclude that the project will have no unmitigated significant adverse environmental impacts. By completing the certification on the next page, the lead agency can complete its determination of significance.

**Determination of Significance – Type 1 and Unlisted Actions**

Identify portions of EAF completed for this Project:  Part 1     Part 2     Part 3

Upon review of the information recorded on this EAF, as noted, plus this additional supporting information \_\_\_\_\_

\_\_\_\_\_ ,  
and considering both the magnitude and importance of each identified potential impact, it is the conclusion of this lead agency that:

A. This project will result in no significant adverse impacts on the environment, and therefore an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency \_\_\_\_\_

\_\_\_\_\_  
There will therefore be no significant adverse impacts from the project as conditioned, and therefore this conditioned negative declaration is issued. \*

(\* A conditioned negative declaration may ONLY be used with UNLISTED actions.)

C. This project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must therefore be prepared to explore alternatives to avoid or measures to mitigate those impacts. Accordingly, this positive declaration is issued.
